POLYURETHANE 1198 MDT

Flexible linear tube in ether-based polyurethane metal detectable with additives charges.

FEATURES

The use of metal detectors for the detection of potential contaminants of the product being processed is a common expedient in the phases of transport and processing of food. Our **R&D** department has studied, in collaboration with prestigious companies in the sector, the **1198 MDT polyurethane** hose which, thanks to the use of specific additives, is able to be detected by the control machines.

INDUSTRIAL

FOOD

APPLICATIONS

INDUSTRIAL AUTOMATION

VACUUM

MACHINE TOOLS

ROBOTICS

HYDROLYSIS RESISTANCE

CABLE CARRIER CHAIN

PRESSION/TEMPERATURE

Operating temperature: **from -40°C to 60°C**

Safety factor on working pressure: **3:1**

Here on the side: **Graph of pressure drop expressed as a % in relation to temperature**
